CANADIAN PUBLIC HEALTH ASSOCIATION  
**2016-2020 Strategic Plan**

Founded in 1910, the Canadian Public Health Association (CPHA) is the independent voice for public health in Canada with links to the national and international communities. As the only Canadian non-governmental organization focused exclusively on public health, CPHA is uniquely positioned to advise decision-makers about healthy public policy and to guide initiatives to help safeguard the personal and community health of Canadians and people around the world.

CPHA is a national, not-for-profit, voluntary membership-based association. CPHA’s members believe in universal and equitable access to the basic conditions that are necessary to achieve health for all.

## CONTEXT

CPHA will continue to model values of transparency and accountability and therefore, this plan will be outcomes-focused, identifying specific measures and indicators wherever possible. The proposed objectives must be aligned with the financial realities of the organization at present and for the foreseeable future.

Building on its well-established status and unique history, CPHA will continue to leverage its credibility as a force for change in the public health system and the broader domain of healthy public policy.

Public health continues to be a domain with inter-jurisdictional accountability. While CPHA has a critical national-level policy role to play, the organization remains committed to working collaboratively with other like-minded, traditional and non-traditional stakeholders to improve the health of people across Canada and internationally.

The core functions of the Association include:

- ✦ membership services;
- ✦ development of evidence-informed policy alternatives;
- ✦ outreach, mobilization and advocacy;
- ✦ knowledge development, translation and exchange; and
- ✦ collaborations with a broad range of groups, networks, coalitions and its members.

A healthy and just world

## OUR MISSION

CPHA’s mission is to enhance the health of people in Canada and to contribute to a healthier and more equitable world.
