

President & CEO Stevenson Memorial Hospital

Location: New Tecumseth, ON.

Stevenson Memorial Hospital (SMH) is proud of its deep roots and nearly 100 years of service. A 38-bed community hospital located in the Town of New Tecumseth, SMH is a valued and essential part of the fabric of the region through the care and treatment it provides to patients from New Tecumseth, Adjala-Tosorontio, CFB Borden & Essa Township.

SMH is thrilled to announce an exciting redevelopment project that will transform SMH into a modern, state-of-the-art healthcare facility. Built in 1964, the current hospital was designed to support 7,000 Emergency Department visits per year. Today, SMH manages nearly 35,000 visits annually, and the growing demands of its catchment area make redevelopment essential to meet the healthcare needs both now and for future generations. It is within this exciting context that SMH is seeking its next **President & Chief Executive Officer (CEO)**.

Reporting to a volunteer Board of Directors, the CEO holds accountability for the organization and operational management of the Hospital in accordance with policies established by the Board. The CEO's strategic leadership and oversight of the financial, operational and human resources of the Hospital ensures the achievement of strategic goals and objectives, advancing the interests of the Hospital while contributing to the continuous improvement of the broader healthcare system.

As an ideal candidate, you are a credible, highly respected systems thinker with previous executive level (CEO, CNE, VP, etc.) experience in a dynamic healthcare environment. You are a champion of change, skilled at building and developing teams united in a culture of performance excellence at a time of unprecedented change and pressure within our health system. An inspiring and values-based people leader, you are highly respected for your positivity, willingness to listen and engage, and ability to foster shared accountability.

SMH will benefit from your strong business acumen and ability to guide the Ministry of Health approved new Hospital facility build through to completion by 2029. Having served on or reported to other Boards and/or committees, you appreciate the value and impact that sound governance and a healthy Board/CEO partnership can have on an organization during a period of change and growth. You are an outstanding communicator and relationship builder whose values, integrity and commitment to quality patient-centered care can engender trust and confidence across a diverse constituency of patients, families, physicians and partners in a small community hospital environment.

Play an exciting role in leading SMH into the future and ensuring it remains a cornerstone of healthcare for the rapidly growing communities that it serves. To apply, please visit: boyden.thriveapp.ly/job/2991. For more information, please contact Andrew Dumont and Collin Ritch of Boyden at critch@boyden.com and **state the title of the position in the subject line of your e-mail**.

We thank all applicants for their interest, however only those under consideration for the role will be contacted.
